

Customer: Grant Forest Products
Project: Two Oriented Strand Board Plants
Location: Allendale, SC & Claredon, SC

Start: February 2006
Complete: February 2008
TIC: \$500 Million
HGA: 12,000 Man-hours

Project Description

Grant Forest Projects constructed two Greenfield oriented strand board (OSB) plants in South Carolina for a combined total installed cost of \$500 million.

HGA Scope

HGA provided civil engineering assistance and project controls support for the two plants. Services included foundation designs and construction coordination for all building and equipment foundations. Project control services were provided in order to monitor and control costs on the projects.
