HGA professionals assess, manage and help you optimize capital projects

Project Managers and Engineers

Delivering on commitments. Building long-term relationships.

## Hunt, Guillot & Associates (HGA) maximizes profitability for clients by providing the optimal solutions to improve efficiency, manage costs and complete projects on time, within budget.

HGA is a multi-disciplined project management and engineering services company providing professional services to an extensive portfolio of customers throughout numerous industries for more than 20 years. Our expansive client roster includes Fortune 500 and Fortune Global 500 corporations, state and local government municipalities, and many prestigious public and private firms. HGA has ten locations throughout Louisiana, Texas, New York, and

Alabama and has provided full-service offerings in over 30 states, Canada, and Mexico. With a staff of over 400 employees, HGA expert personnel provide innovative solutions to solve complex technical and business problems. Your company can trust in a proactive partnership with HGA experts to complete your project with excellence.

At HGA, we seek to build long-term customer relationships by listening to our clients, leveraging our experience and delivering on our commitments.

### PROGRAM MANAGEMENT

HGA program management experts provide a total business solution that will help optimize your company management decision-making in defining, scheduling, planning, managing, and reporting project initiatives. Experienced in public, private, and governmental agencies, our team's holistic approach will maintain your programs effectiveness and efficiency through strategic planning and detailed project controls.

Our professionals can command all aspects of program management, including:

- Scope Definition
- Cost Validation
- Communications Planning
- Change Management

**“We seek to build long-term customer relationships by listening to our clients, leveraging our experience and delivering on our commitments.”**

### ENGINEERING

No matter your needs, HGA delivers one of the most complete, thorough engineering packages available. You can trust our advanced engineering capabilities throughout all disciplines to provide the right solutions.

Our client satisfaction ratings are testament to our attention to detail and commitment to delivering a high-quality product. We offer the flexibility and willingness to adapt to our client's needs and methods. Our proven design principles, project agility, and knowledgeable, senior staff will ensure project success by managing costs, improving efficiency, and completing projects on-time and within budget.

### PIPELINE SERVICES

HGA's pipeline services provide engineered solutions to suit your specific project for a more cost-effective solution. We are experts in all facets of pipeline services from maintenance and operating services to project and construction management service. We provide a full range of service offerings including surveying, geographical information systems (GIS), design,

engineering, procurement, right of way, and inspection to suit your specific project. You can rely on HGA to develop custom packages unique to your project needs and deliver project intelligence using superior technology. We offer you the industry's most advanced GIS applications and UAS systems – ensuring you meet pipeline safety regulations and certain to save you time and money!

City of Bossier: CNG Fueling Facility.

Chesapeake: North Louisiana Natural Gas Treating Facility.

### EPCM SERVICES

HGA has successfully completed highly-complex, logistically challenging engineering, procurement and construction (EPC) projects for clients in locations across the globe. Our EPC experts specialize in delivering oil & gas, CNG, metering and regulator skids, public works, and biomass projects with quality and safety our clients expect. There is no scope that HGA's in-depth experience cannot handle. Whether it is an industrial initiative, or a secure government project, our experts present solutions that cater to the needs of each customer. When you have a difficult EPC challenge, count on HGA to deliver.

### STAFFING

Developed through our professional network, HGA staffing provides proven contract personnel for on-site industrial projects worldwide. In addition to our contract services, we've been delivering quality candidates for permanent placement to leading organizations for 20 years.

A few of our most popular placements are:

- Inspectors
- Construction managers
- Engineers
- Designers
- Operations personnel

Take advantage of HGA's staffing expertise to identify, screen, and source well-qualified engineering, technical, and industrial personnel.
