

ST. BERNARD PARISH, LA PROGRAM MANAGEMENT FEMA HMA INFRASTRUCTURE AND HOUSING

CLIENT

St. Bernard Parish Government

PROJECT TIMELINE

April 2013 – Present

PROGRAM VALUE

\$89.1 million FEMA HMA

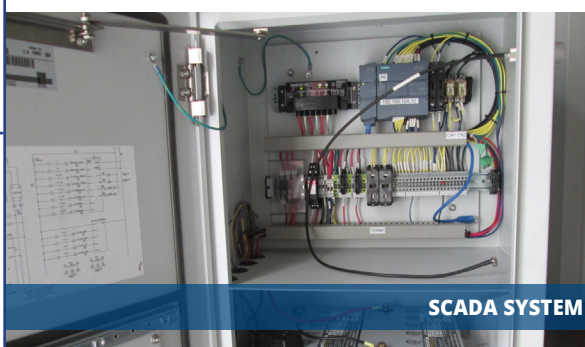

SERVICES

- Program Management
- Construction Management
- HMGP Application
- HMGP Grant Management

OVERVIEW

FEMA awarded St. Bernard Parish an HMGP grant to implement hazard mitigation measures for critical infrastructure and homes affected by Hurricane Katrina.

46 Elevations | **162** Acquisitions | **11** Infrastructure Projects

SOLUTION

HGA is providing comprehensive grant management support for housing and infrastructure. We are assisting with all facets of the housing program to include developing the application, meeting with homeowners, inspections, and processing each applicant. For the infrastructure portion, we are providing reporting, financial management and tracking, and document management. Infrastructure projects include installing backup generators, repairing pump stations, drainage projects, safe rooms construction, and installation of a SCADA system (Supervisory Control and Data Acquisition) to remotely monitor lift stations.

HGA also developed and delivered an internal audit to help the Parish prepare for an upcoming Office of the Inspector General (OIG) audit.
