

TANGIPAHOA PARISH, LA PROGRAM MANAGEMENT FEMA HMA INFRASTRUCTURE

CLIENT

Tangipahoa Parish Government

PROJECT TIMELINE

September 2018 – present

PROGRAM VALUE

\$5.4 million FEMA HMA

SERVICES

- Program Management
- Construction Management
- HMA Grant Management

OVERVIEW

After experiencing historic flooding in 2016, Tangipahoa Parish was awarded an HMGP grant to implement mitigation measures for critical infrastructure.

6 Infrastructure Projects

SOLUTION

HGA is working with Tangipahoa Parish on drainage improvement projects to mitigate future flooding. HGA has been tasked to perform the following activities:

- Review plans and specifications, construction details, and elevation certificates.
- Conduct pre-mitigation planning to ensure that projects are compliant with local building codes.
- Interview contractors and subcontractors for proper insurance, qualifications, and financial stability.
- Develop a construction package that includes a milestone inspection check sheet.
- Conduct on-site milestone inspections to ensure necessary compliance regarding program mandates and contractor payment requests for reimbursement.
- Develop and submit quarterly reports to Tangipahoa Parish and GOHSEP.
- Perform reconciliation and closeout.
